Examiner's Amendment/Allowance

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claim 1, lines 13-14, (line 13) after "multi-layered" and (line 14) before "structure" delete all character writing.

The following is an examiner's statement of reasons for allowance: the claimed invention is distinguished over the prior art of record to Lin et al. (6,770,903) which teaches (see claims 10-12) a method for forming a nanometer scaled intermediate layer by a method selected from the group consisting of a non-uniform surface oxidization process, and an atomic-force and scanning tunneling probing process that results in non-uniform oxidization.

However the claimed invention is distinguished over the prior art or record in that the prior art does not teach a method of manufacturing reflective multi-layered thin film mirror for extreme ultraviolet radiation exposure processes using atomic force microscopic lithographic technology comprising: (a) depositing a reflective multi-layered thin film and a capping layer on a silicon substrate; (b) depositing a thin metal film selected from the group consisting of chromium, tantalum, and tungsten as an absorber layer on said multi-layered thin film and said capping

layer; (c) selectively forming metal oxide structures with fixed height and width on substrates by applying electric field between cantilever tip and said multi-layered structure of the substrate using an atomic force microscope; and (d) forming ultrafine line width absorber patterns by etching of said metal oxide structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
